2 November	3 chassis for work shop trucks	plant-owned truck	NAG Ober-schoeneweide
3 November	2 Studebaker workshop trucks	self-transportation	tank unit to which truck 25X1 belonged (2)

3. Major Makaroff (fnu) and four fitters drove to the Soviet units in the Magdeburg and Wittstock areas in order to inspect the damaged motor vehicles on the spot. 3 Officers were seen leaving the depot aboard plant-owned bus 25X1 on 1 November for pistol and carbine firing practice in the Mueggelberge.

4. On 3 November, Major Mazaroff (fnu) stated that many more motor vehicles from the U.S.S.R. would still have to be repaired. Specifically, 1,200 Studebaker and 1,300 ZIS trucks would be delivered and that therefore the workforce would be doubled and day and night shift would be worked. (4)

5. At the end of October, the depot was inspected by a commission consisting of 5 colonels, 4 majors and 4 or 5 other officers from Potsdam and several officers from the NAG at Oberschoeneweide. The inspection had not been finished by 4 November. [REDACTED]
- 25X1 the capacity of the depot was being studied. (4)

25X1 [REDACTED] Comments.

- (1) The depot at Zeesen is a pre-fitting plant of the 53d Central Repair Shop at Berlin-Oberschoeneweide and issuing point of motor vehicles repaired at Oberschoeneweide. The volume of incoming and outgoing shipments indicates that the capacity of the depot was about three times as great as it had been in August 1951. In August 1951, the quota of motor vehicles repaired was 100 to 120 while, between 15 October and 3 November 1951, it was 162 motor vehicles, 194 motors and 21 chassis.

- (3) Major Makarov (fnu) is head of the fitting section at Zeesen.
- (4) Major Mazarov (fnu) is chief of the motor pool at Zeesen. His statement that the capacity of the depot would be increased is given credence. It is worth noting that the Soviets are striving to further increase the capacity of the depot.
